

Dataset Terms of Use

Note that this document is not a proposal for conclusion of a contract — in order to obtain rights to use the Dataset, a contract between You and the Licensor must be closed and formalized in the form of a contract first. This document only summarizes the Terms of Use and outlines the licensing. To proceed with the contract, visit our website (www.veriffee.ai/research) and request access.

Veriffee Research (hereinafter "Licensor"), composed of Matyáš Boháček, Michal Bravanský, and Filip Trhlík (hereinafter "Authors"), strive to enhance public access to and use of the data whose collection, annotation, and publication they executed. The data (Czech news articles with information regarding their manipulative attributes) are organized in a dataset (the "Dataset"), presented at <https://veriffee.ai/research> (the "Website"). The Dataset is a collection of data, managed by the Licensor and provided in several machine-readable formats.

Licensor provides any individual or entity (hereinafter "You" or "Your") with access to the Dataset free of charge subject to the terms of this agreement (hereinafter "Dataset Terms"). Use of any data derived from the Dataset, which may appear in any formats such as tables, charts, devkit, documentation, or code, is also subject to these Dataset Terms. By downloading provided Dataset or using this Dataset, You are agreeing to be bound by the Dataset Terms. If you are downloading provided Dataset or using this Dataset for an organization, you are agreeing to these Dataset Terms on behalf of that organization. If you do not have the right to agree to these Dataset Terms on behalf of your organization, do not download or use the Dataset.

License

The Dataset is provided to You under Attribution-NonCommercial-ShareAlike 4.0 International license (CC BY-NC-SA 4.0), with the additional terms included in these Dataset Terms. Your rights and obligations stemming from the CC BY-NC-SA 4.0 may be found found <https://creativecommons.org/licenses/by-nc-sa/4.0/>. When You download or use provided Dataset, You are agreeing to comply with the terms of CC BY-NC-SA 4.0, including strict ban

on any commercial applications. Note that any product, which leverages the Dataset and/or observations from it needs to adhere to the complete Dataset Terms, too.

If you wish to use the Dataset outside the boundary of CC BY-NC-SA 4.0 (e.g., use it for commercial purposes), You must contact the Licensor at info@veriffee.ai. A personalized license agreement and conditions may be set up only when the majority of Authors agree to pursue such a deal.

Ethical Standards

You must adhere to the Ethical Standards and follow United Nations' Principles for the Ethical Use of Artificial Intelligence¹ in any pursuit involving the Dataset. You further agree not to use the Dataset to:

- Replicate texts of low trustworthiness — either manually or automatically — with the intention to release them by any means.
- Create an algorithm that recommends or promotes articles of low trustworthiness.
- Produce any product supporting the spread of mis- and disinformation.

If You fail to comply with our Ethical Standards, the Licence provided to You is immediately voided, with your continued usage of the provided Dataset carrying all legal ramifications of it being seen as unlicensed.

Privacy

You may not use the Dataset to invade the privacy of any person, whose personally identifiable information (PII) or other personal data (as defined by Your respective region's law) may have been incidentally collected during the creation of this Dataset. This includes action which might be otherwise classified legal in Your respective region's law. Privacy concerns and PII removal requests can be directed at info@veriffee.ai.

No Publicity Rights

You may not use the name, trademark, official mark, official emblem, or logo of the Licensors (both "Veriffee" and "Veriffee Research") without the Licensors' prior written consent. This includes indication (or implication) of an association with the Licensors. The only allowed case of mentioning the Licensors' name are texts, which fulfill the attribution requirements of the CC BY-NC-SA 4.0 license, as described in the Section License.

Termination

The Licensors may terminate Your access to all or any part of the Dataset or the Website at any time, with no obligation to state the cause nor provide extensive notice, effective immediately. All provisions of the Dataset Terms, which — by their nature — shall persist contract termination, will be kept in place with no limitation, including warranty disclaimers, indemnity, and limitations of liability.

Indemnification

You will indemnify and hold the Licensors harmless from and against any and all claims, loss, cost, expense, liability, or damage, including, without limitation, all reasonable attorneys' fees and court costs, arising from:

- (i) Your use or misuse of the Website or the Dataset;
- (ii) Your access to the Website;
- (iii) Your violation of the Dataset Terms;
- (iv) infringement by You, or any third party using Your account, of any intellectual property or other rights of any person or entity;
- (v) Your failure to uphold the Ethical Standards provided in this document.

Such losses, costs, expenses, damages, or liabilities will include, without limitation, all actual, general, special, indirect, incidental, and consequential damages.
